Sub.: Disclosure under Regulation 30 –Strategic Entry into PCB Manufacturing; Expects 40–50% Growth in the BLDC segment in the Coming Years

Dear Sir/Madam

Wonder Electricals Ltd., a trusted name in the electrical industry, has successfully completed the formalities for setting up a new entity, Integrated Motion & Control LLP, focused on PCB manufacturing. Wonder Electricals has hold 51% equity in this LLP.

The company has confirmed that machinery installation will be completed by end of October 2025, with trials scheduled in November–December 2025. Full-scale commercial production is expected to begin in the 4th quarter. A state-of-the-art factory is also under construction to support this expansion.

With this new initiative, Wonder Electricals aims to deliver innovative, reliable, and cost effective fan compliant solutions. The unit will be capable of offering end-to-end hardware and software solutions with strong R&D support.

Industry experts believe that this expansion into PCB manufacturing will significantly enhance the company's product portfolio and profitability. While the initial estimate suggests an accelerated growth in profits, the company is hopeful that in the longer term, it can achieve its targets driven by strong domestic demand and global opportunities.

The first phase of production will focus on BLDC Motor Controllers for consumer and industrial applications, including:

BLDC Controller for Ceiling Fans
 BLDC Controller for Inverter Fans
 BLDC Controller with Light for Ceiling Fans
 BLDC Controller for Table & Wall Fans
 BLDC Controller for Induction Fans
 BLDC Controller for Cooler Motors
 BLDC Controller for Industrial Circulators

Backed by a highly skilled and experienced team, this new venture positions Wonder Electricals to capture the growing demand for energy-efficient and sustainable power solutions both in India and international markets.

You are requested to kindly take the same in your records.

Thanking You,

For Wonder Electricals Limited

Dhruv Kumar Jha
Company Secretary & Compliance Officer
